<http://linkedin.com/in/montyburr>

Currently studying Computer Science with a focus on cyber security and threat intelligence, I have built a solid foundation in programming, data structures, and secure system design. My coursework and independent projects have developed my interest in how technology can be used to predict, prevent, and defend against digital threats, and I am now looking to apply that knowledge in a professional environment where I can contribute to real-world security challenges.

Education

Newcastle University – **BSc Computer Science (Cyber Security)**

September 2024 – Expected Graduation: July 2028

First Year Result: **First Class (Average: 83.3%)**

Key modules: Programming Portfolio (83%); Foundations of data science (78%); Computer Systems Design & Architectures (92%); Security programming (97%); Software engineering team project.

- Completed a security programming project focused on advanced authentication with adaptive security which built my technical and analytical skills, further developed through group projects such as the creation of a java application for organising meal plans
- Built a solid foundation in Python and Java programming, alongside database design using SQL and MongoDB
- Implemented version control and collaborative workflows in GitHub to coordinate multi-developer coursework projects and maintain code integrity across team contributions
- Researched and analysed complex topics, such as Flask and the OSI Model, across multiple modules, producing clear, evidence-based reports that demonstrated critical thinking and structured problem-solving.

Marlborough College – **A levels:** Computer Science (A), Maths (A), Economics (B)

EPQ Level 3: Cyber Warfare (A*)

September 2019 – July 2024

- Achieved high-grade A-Level results and a strong Extended Project Qualification (EPQ), demonstrating independent research ability, analytical thinking, and disciplined self-management.
 - Developed teamwork, leadership, and communication skills through active participation in school life and the boarding community, balancing academic excellence with co-curricular involvement.
 - 11 GCSEs: Grades A* - A.
-

Work Experience

Arundel Marquees, West Sussex – Summer 2025

- Assisted in the setup and dismantling of marquees and event structures for a range of private and corporate events, often working under tight timeframes
- Demonstrated strong teamwork, communication, and time management skills in a fast-paced, physically demanding environment

AJW Group, IT Department, West Sussex – Summer 2023

- Shadowed cyber security professionals, learning about threat detection, system monitoring, and access control measures
 - Gained hands-on exposure to multiple specialist teams including Help Desk Support, Data Management, Cyber Security, and Web Development
 - Developed strong communication skills by interacting with professionals across technical and non-technical teams
-

Technical Skills

- **Programming Languages:** Python and Java (proficient in developing, testing, and debugging applications)
- **Databases:** Designed and queried relational and non-relational databases using SQL (SQLite) and MongoDB
- **Version Control:** Used Git and GitHub for collaborative development, branch management, and version tracking
- **Software Tools:** Regularly work with PyCharm, IntelliJ, DBeaver, MongoDB Compass, and VS Code for software development and database management

Soft Skills

- **Collaboration:** Worked effectively within academic project teams and part-time work environments, coordinating both technical and event-based tasks
- **Adaptability:** Quickly learned and applied new technologies and concepts through rotating roles in IT departments and diverse coursework projects
- **Time Management:** Managed concurrent academic deadlines and project deliverables, maintaining consistent quality under time constraints

Interests

- Advanced cyber operations and the protection of critical infrastructure
- Strong academic interest in cyber defence and cyber warfare concepts
- Active member of Newcastle Medics Rugby Football Club
- Passionate about nutrition and fitness, including science of intermittent fasting
